Ken Miyazaki
Obihiro, Japan

Natalia Czapski
Alexandria, VA

Then & Now Spotlight— MJ Arabians

Jassur is two times Egyptian Event winner Top Ten World Class Colts, and this past year won Reserve Champion over all Stallions and Colts in Amateur Halter at the Egyptian Arabian Event in Lexington, KY.

Because Chris & Caren (with PJ's help) started him naturally as a baby, Jassur is very confident. He loves people and knows when it is his time to perform. Don't let high head and tail fool you; he is a born actor and performs without fear. Go Jassur!

Apprenticeship Program Successes

Kensuke (Ken) Miyazaki is from Obihiro, Japan. Ken came her to C & C in October and is planning to stay through April this year. He is working on improving his own riding skills and learning how to start horses.

Natalia Czapski is from Alexandria, VA. She arrived in January and is staying through the summer. In addition to learning about the business management side of things, she is also working with horses.

New Arrivals

Caren's Paint mare Casey gave birth to a beautiful and spunky colt May 18, 2010. Valor ("Twiddles") was scored by judges from Sweden on Sept. 19, 2010: Type=8, Head, Neck, Body=7, Legs=7, Walk=7, Trot=8, Canter=6. Caren is looking forward to training him.

Get your baby started right with our gentle care and imprinting program. Contact us to learn more about this program.

Featured Sale Horse

Name: Apple

Our Spotlight horse is Apple. He is a 5-year-old 16 hand Appaloosa gelding. Apple came to us with past history and we've been working to increase his confidence and trust. He is being started under saddle and is quiet on the ground. Apple would do best in an experienced home with someone who could continue his training and fully develop his potential. Contact us for more information on this horse!

C & C Colt Company Training/Health Tips

Chris' New Years Training Tip

Stop whispering to your horse and start listening to your horse. You've got the best teacher right in front of you.

Caren's New Years Health Tip

Stem Equine ingredients help support the release of stem cells from the bone marrow into the bloodstream. Through a natural process the stem cells travel to areas of the body where they are needed most. Stem Equine can be a valuable tool in managing your horse's health. For more information:
